Your marriage will never be the same!

Tim and Terri Brooks

found themselves struggling in their marriage, like many, after only a few years of being together. Their decision to stay together has changed not only their lives, but now countless others as they share their experiences. A marriage that was once headed for disaster is now a model marriage that imparts life-changing truths into other marriages.

Tim and Terri laugh together, play together, and work together—and are having the time of their lives together—and they want to share their secrets with you.

Tim and Terri have two daughters, two sons-in-law, two granddaughters and two grandsons, and they operate a summer youth camp, pastor a church, oversee a Christian school, founded Applied Life Leaders Academy, develop and sell real estate, and love to ride a motorcycle together in their spare time. Tim and Terri have a way of sharing about marriage that is both practical and entertaining. As Tim says, "When you back off and look at yourself and the way you do things—it can be hysterically funny."

You will learn how to understand each other—as a woman, learning to think like a man; and as a man, learning to think like a woman, which doesn't just happen when you say "I Do." Tim and Terri have found that this is the key to a great marriage—men and women learning to communicate with the opposite sex—and this seminar is the place to start making it happen for you.

David and MeLisa Pate

are the daughter and son-in-law of Tim and Terri Brooks. They have been married over ten years and have a daughter, Olivia, and a son, Eli. They are actively involved in the ministry to carry out the vision for this generation. David is the principal of Christian Ministries Academy, an associate pastor of Christian Ministries Church, as well as a very exciting and anointed speaker. You WILL BE blessed by what the Pates provide at this seminar.

The Greatest Weekend of Your Life!

If you're married, this is one of the *greatest investments* you can make. Whether you're newlyweds or you've been married for over fifty years, your future will be *forever changed*. There is no way we can tell you in a few words how much these seminars continue to mean to those who take the time to come. People often say that they have a good marriage. While that is great, *it can always be better*. We train ourselves for years for our jobs and professions, constantly updating and

upgrading our training. We work countless hours perfecting our hobbies and other interests, and yet the thought of "working" on our marriage never seems to enter our minds. In fact, if someone even mentions that we should, we get offended!

Do yourselves a favor and come—you will not believe the fun you will have! Your marriage is one of the most important things on this earth, and you will be amazed at what will happen when you put some effort into it. You will have one of the best, one of the most fun, and definitely one of the most beneficial weekends of your lives.

Come and join us for a terrific weekend! You'll be glad you did!
